

**Karolinska  
Institutet**

**ALLISON MACKEY**  
Audiologist  
Doctoral Candidate

**INGER UHLÉN**  
MD, PhD  
Doctoral Supervisor

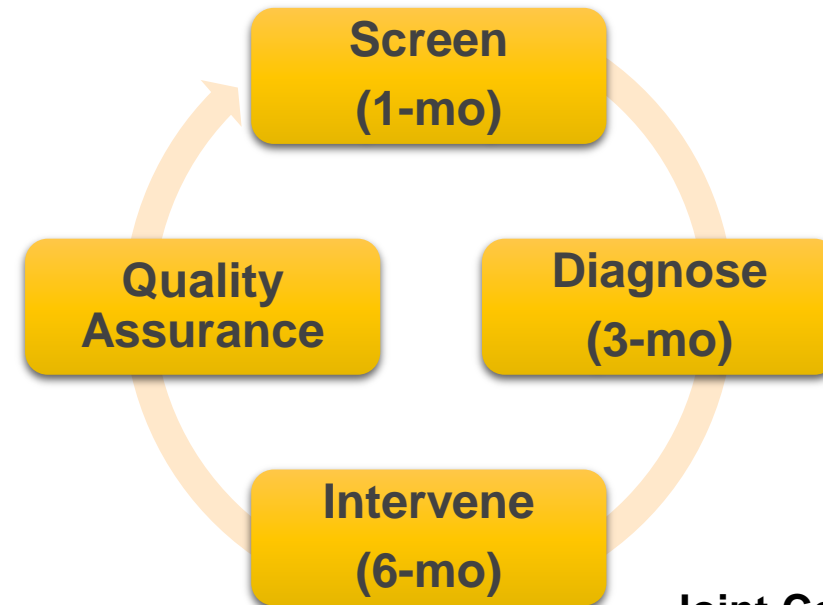

**GOAL:**

**BEST POSSIBLE OUTCOMES FOR  
CHILDREN WITH HEARING LOSS**

**CONCEPTUAL FRAMEWORK:**

**EARLY HEARING LOSS  
DETECTION & INTERVENTION**

**Joint Committee  
on Infant Hearing  
(2007)**

## QUALITY ASSURANCE & BENCHMARK INDICATORS of INFANT HEARING SCREENING

### QUALITY ASSURANCE

“Quality assurance issues in particular are vital to successful newborn and infant hearing screening and related interventions” (WHO, 2009).

“Timely and accurate monitoring of relevant quality measures is essential.” (JCIH, 2007)

American Academy of Ophthalmology and Otolaryngology, American Academy of Pediatrics,  
American Academy of Speech and Hearing

**First statement 1971**

“About the need to identify hearing impairment as early in life as possible.”

**BENCHMARKS indicators  
(JCIH, 2007)**

1. Percentage of infants who complete screening by 1-month of age: >95%
2. Percentage of infants who fail screening and are referred for audiological assessment: <4%
3. Identification of HI < 1 month of age
4. Audiological and medical evaluation < 3 months of age
5. Intervention services < 6 months of age

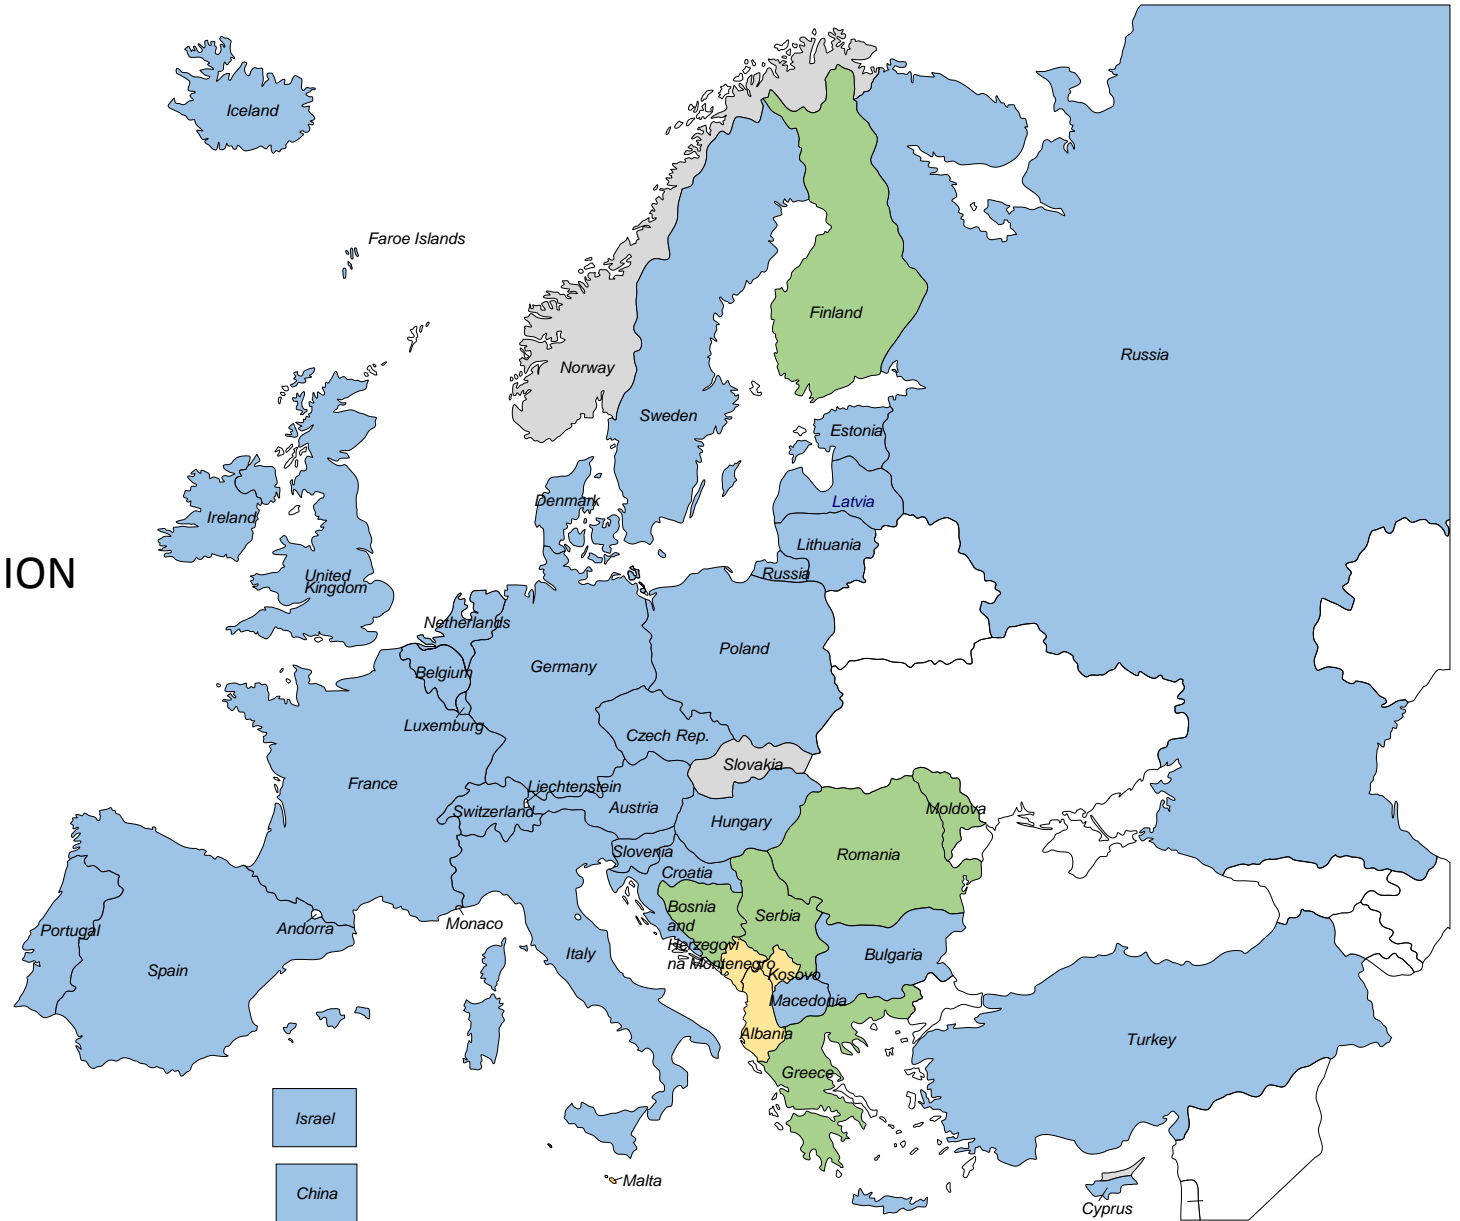

## IS THERE A NATIONAL OR REGIONAL GUIDELINE FOR NEONATAL HEARING SCREENING (NHS)?

-  YES
-  NO
-  NO NHS PROGRAMME
-  UNKNOWN

## IS THE SAME PROTOCOL FOR NHS IS PERFORMED...

-  ACROSS THE ENTIRE COUNTRY / REGION
-  ONLY LOCALLY
-  NO NHS PROGRAMME
-  UNKNOWN

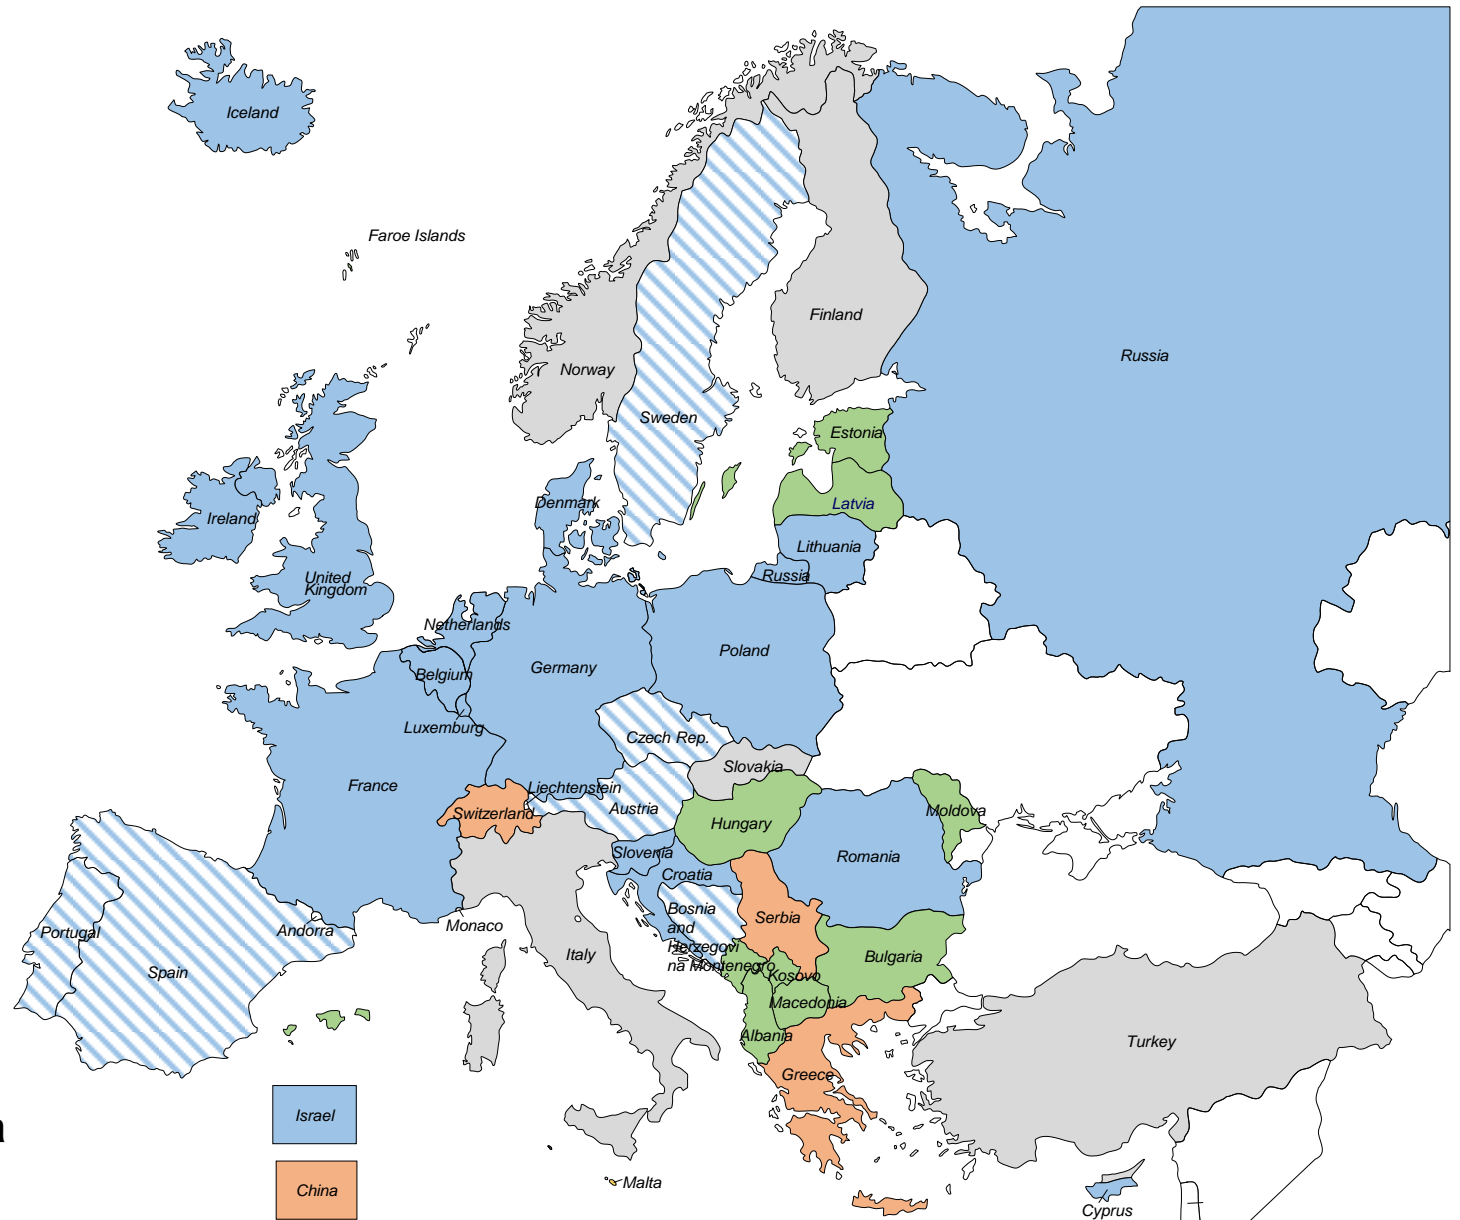

## ARE OUTCOME MEASURES COLLECTED FOR NHS?

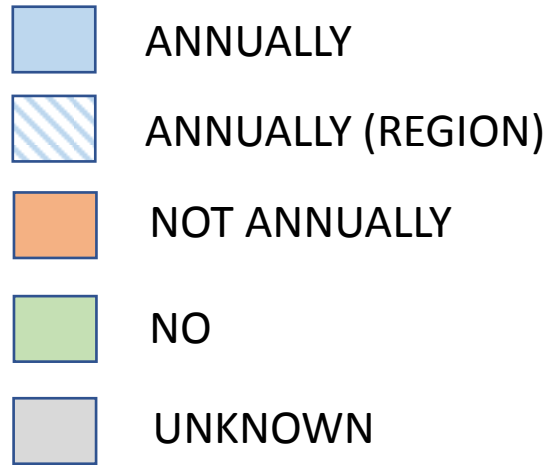

- 26 countries / regions report collecting outcome data to evaluate their NHS
- 4 countries collect data only locally
- 5 countries with NHS do not collect data

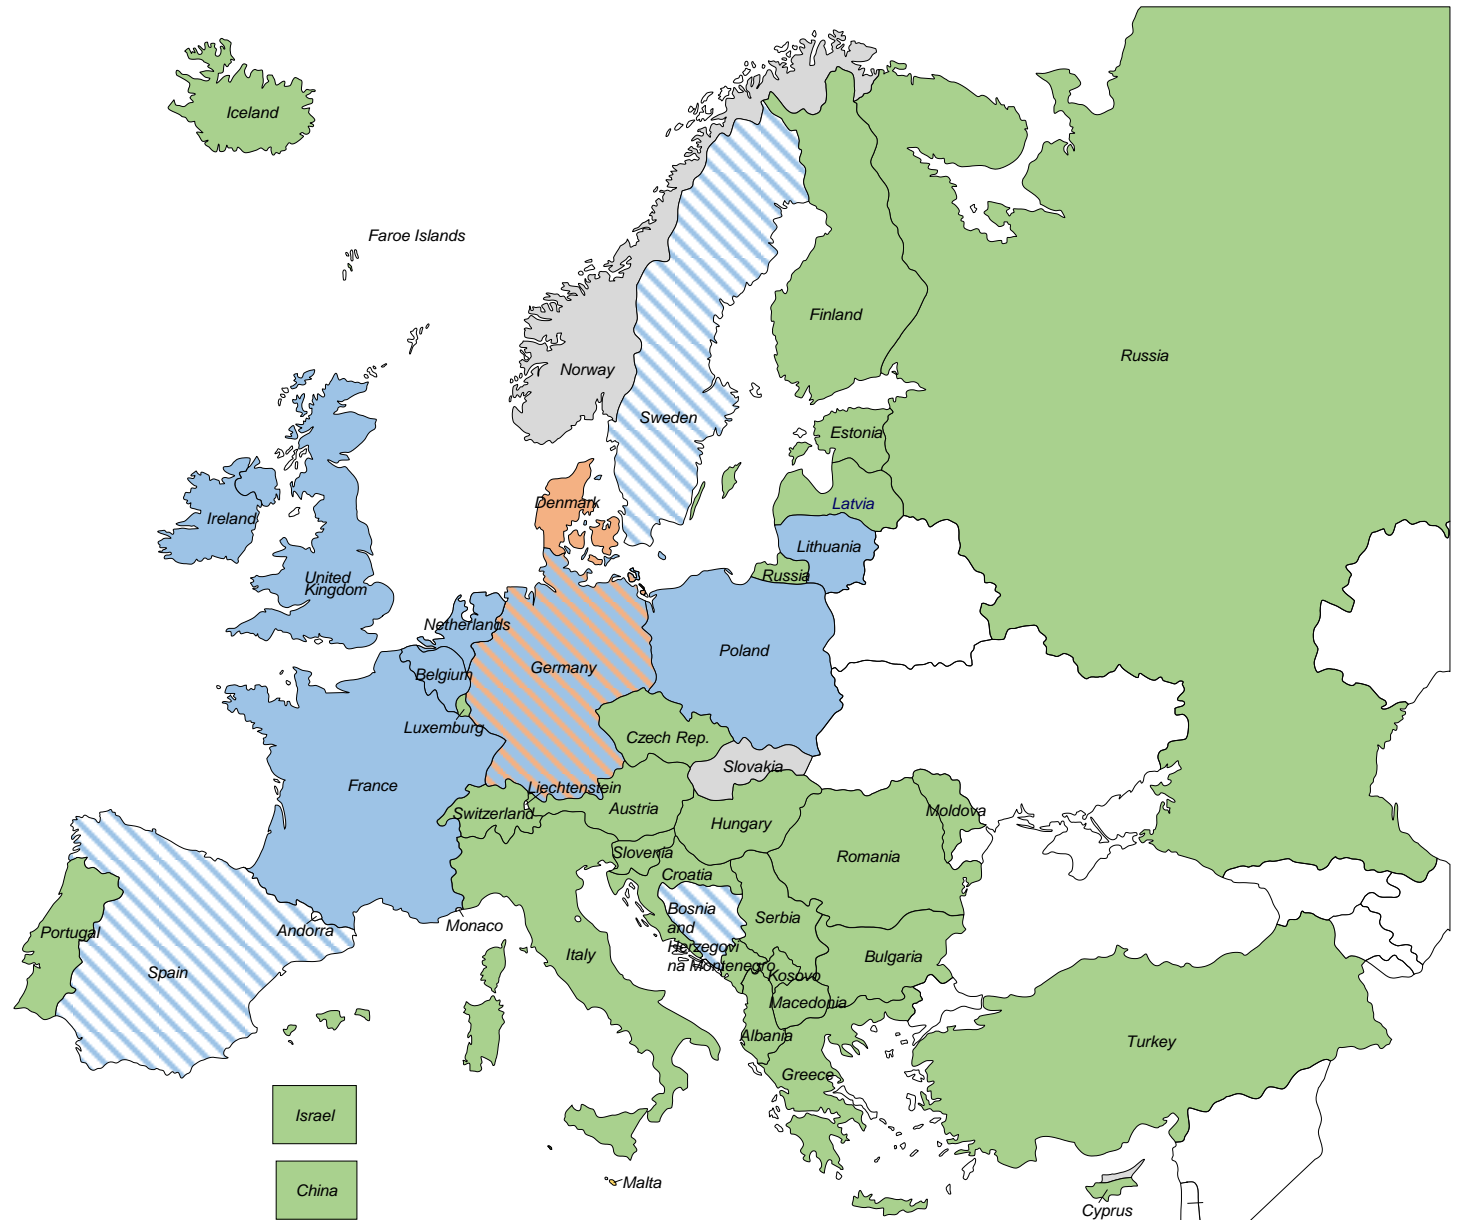

## REPORTING PERFORMED?

**14 countries / regions report on the outcomes of their NHS programme**

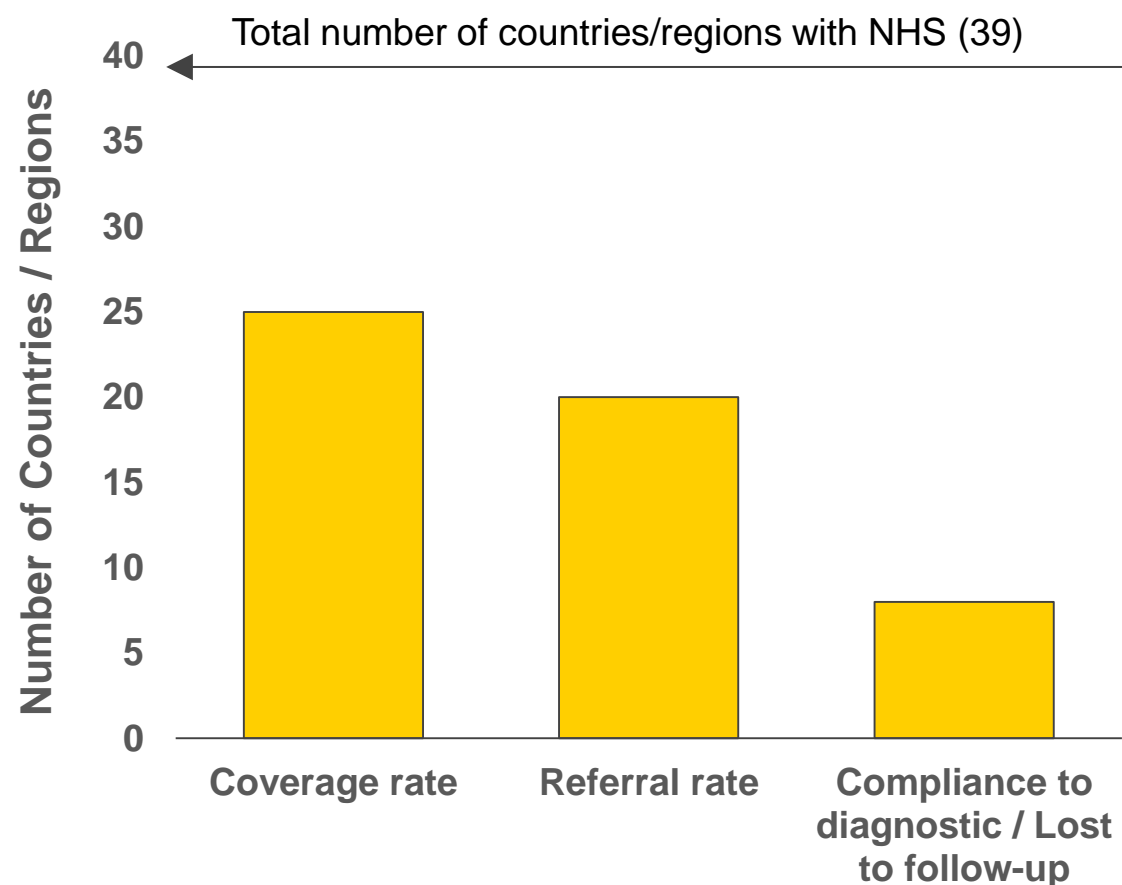

## BENCHMARK INDICATORS IN QUESTIONNAIRE

- coverage rates
- referral rates
- compliance rates
- Answers included:
  - *From real data / calculations*
  - *Collected from NHS programme*
  - *Large sample size*

**26 / 39 countries or regions could provide at least one benchmark indicator**

**7 / 39 countries or regions could provide all 3 benchmark indicators**

---

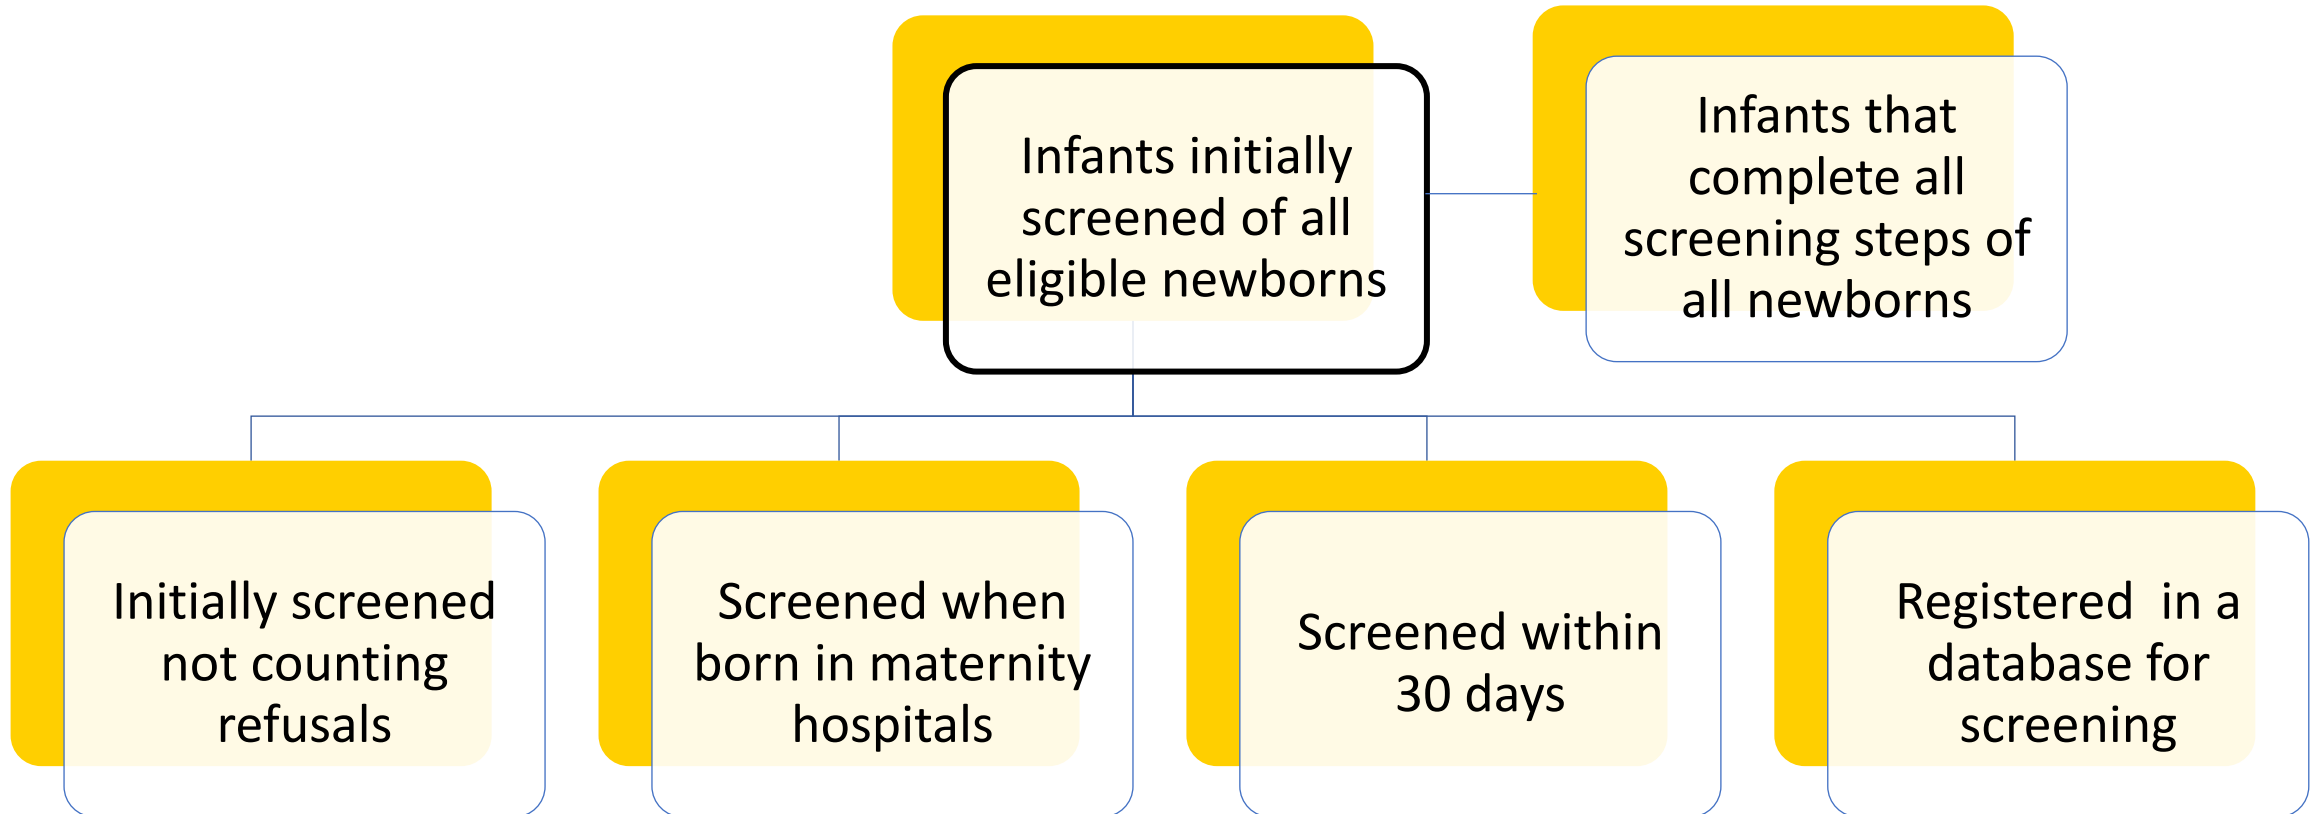

## BENCHMARK INDICATORS

---

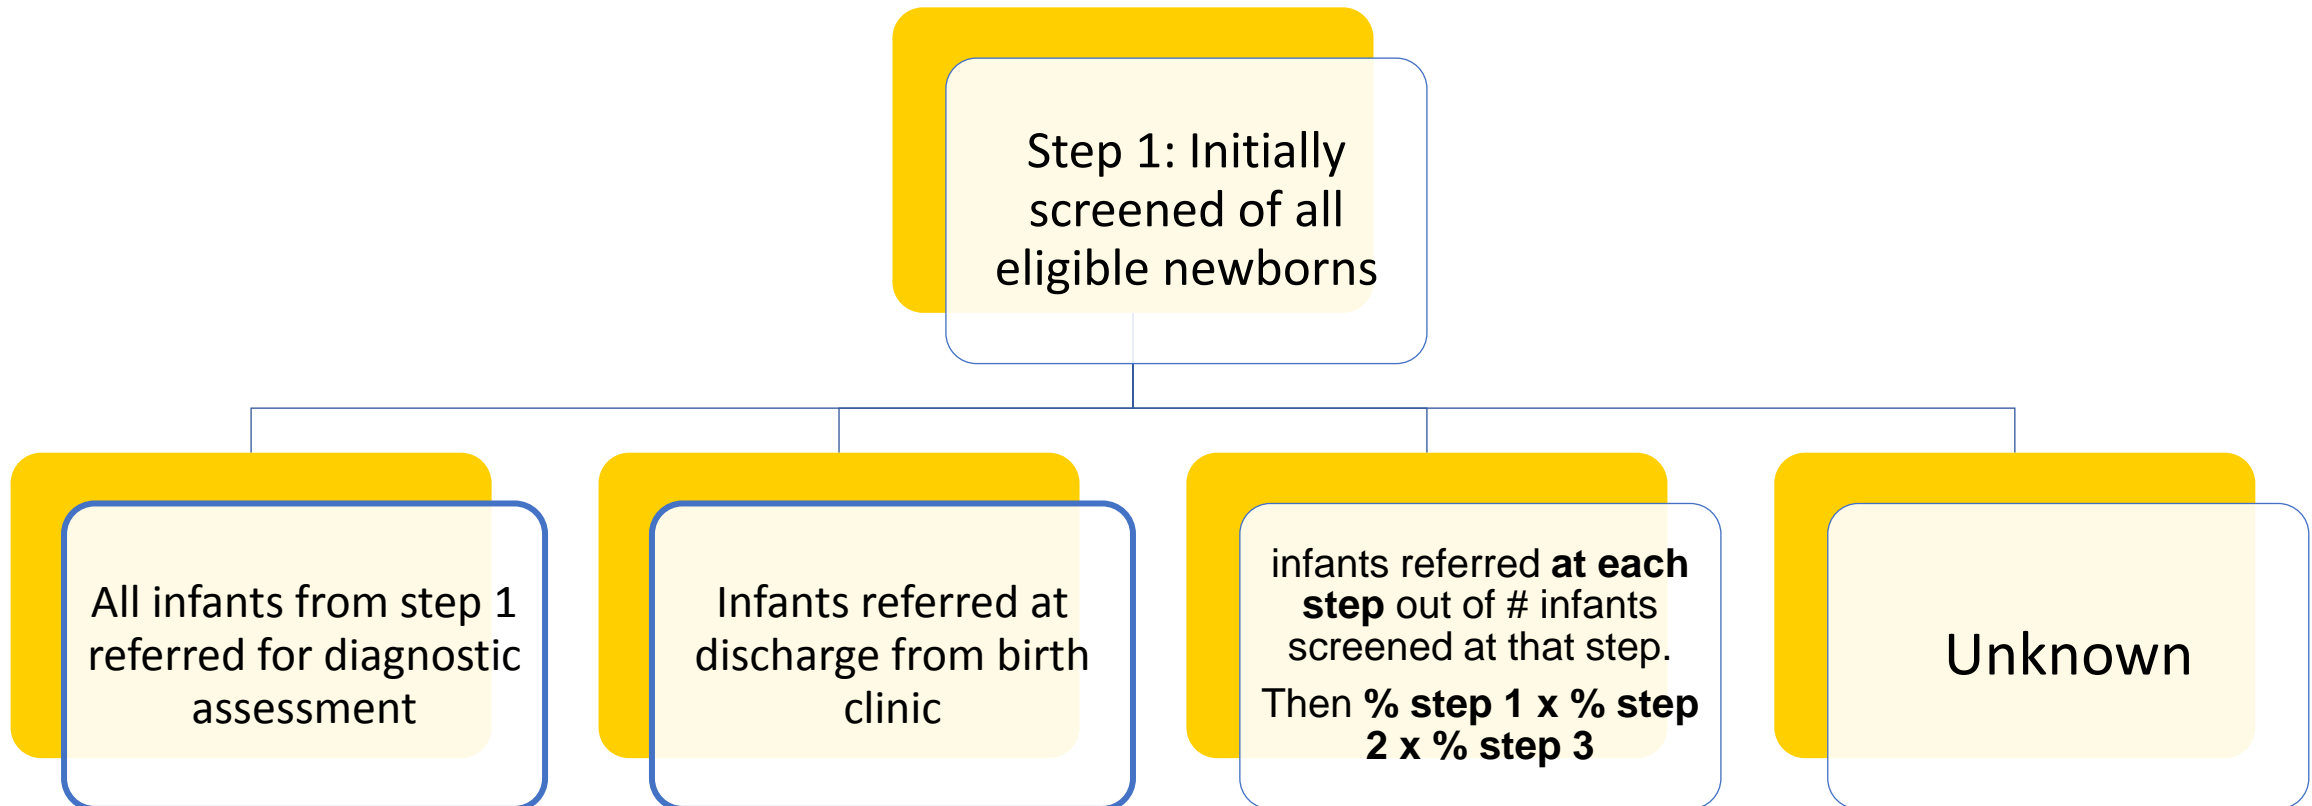

Definition of COMPLIANCE RATE	# of countries or regions
# of infants that attend the diagnostic assessment out of the # of infants referred	8
<b>Total</b>	<b>8</b>

---

**BENCHMARK INDICATORS – COVERAGE RATE**

## BENCHMARK INDICATORS – REFERRAL RATE

**QUALITY ASSURANCE & BENCHMARK INDICATORS IN  
SCREENING PROGRAMS IS ESSENTIAL to ASSIST  
HEALTHCARE PROVIDERS AND POLICY MAKERS TO  
INCREASE EFFECTIVENESS; EFFICIENCY AND EQUITY OF  
CHILD HEALTHCARE**
